## Underhand Fly Fishing Trout School

We are offering a trout fly fishing school in Björbo, Sweden. Near the home of Göran Andersson in Sweden is a vast area of lakes and rivers that holds large brown trout. The brown trout get up to 9 kg in these lakes. It's not uncommon to catch and land a trout up to 6 kg. But more normal is fish up to 3 kg and mostly 1-2 kg.

## Göran Andersson

Göran Andersson began Fly Casting at an age of 5. A little later he developed the Underhand Casting style. A complete new and different way of casting!  
The difficult places Göran wanted to fish demanded him to find another strategy to catch the big trout under low hanging bushes.

At the age of 14 he teaches and works full time on designing fly rods, fly lines, leaders and casting technique. And now he offers to teach you the same possibility and give you the tool to a new way of fishing!

Casting and fishing is an adventure that everybody can experience. Göran's goal is to let you have that experience!

## Edwin Steffens

Edwin Steffens began like maybe most of us fly fishing at an age of 20. Fly Fishing is more than just fishing it's a whole experience of nature and being outside.

Casting and fishing is an adventure everybody, young, old, man or woman can experience. And it will change your life. His goal is to let everybody that wishes to experience something different experience the beauty of fly fishing. That entails casting, fishing, fly tying and guiding on trips.

## The fishing and class

Goran Andersson will teach you how to catch the big trout in a 4-day's trout fishing school. The classes will take place on Sunday, Monday, Tuesday and Wednesday. And starts every day at 10:00 and will end at 12:00 hours. The rest of the day and the rest of the week is fishing time. If you are up for it Edwin will teach you to tie some flies for yourself.

The fishing is concentrated on 3 lakes, the lakes can easily be reached by car in a maximum drive of 15- 40 min from Björbo. One lake can be fished belly boat the other lakes are fished from shore or wading.
